Scholarship - How is the project informed	The field of educational development is rapidly chan

work?	Associates, 2010) while still meeting the traditional needs of individual instructors. In response, there is a movement for educational developers to document their nature of		
	their work, in particular the skills that define the profession (Stanley, 2001; Wright &		
	Miller, 2000) and share ways to improve these skills through mentoring resources		
	within the educational development community (EDC Living Plan, 2012). Though		
	interpersonal skills such as rapport are often central to effective educational		
	development (Berquist & Phillips, 1975; Wright & Miller, 2001), documenting how educational developers acquire this skill, or how it develops over the course of their career remains challenging.

3. Budget: Funding cannot be provided for faculty/staff salaries of the grant's principal, nor any co-applicants; computer hardware or non-specialized software, or any parts of conference travel. See also budget guidelines below this form.	The grant would fund a graduate student for 50 hours to create a literature review, coordinate chapter authors, and assist in creating the open "blue book" resource (modeled after the STLHE green guide). The printing costs of \$70.00 would cover costs associated with a literature review, coordinating, and proofing.

Budget Guidelines:

- Include all applicable taxes and other costs.
- Use rates of pay at the institution of the principal applicant.
- Benefits: this is the employer's portion of Income Tax, CPP and El calculated as a percentage of the salary or honorarium. Though it is not paid to the person you hire, you pay for it and hence it needs to come out of your budget. Some job titles also require the addition of vacation pay; determine these rates in consultation with your Human Resources department.
- Given the size of this seed grant, it is expected to be **exempt from Institutional Overhead costs**.
- Funding cannot be provided for faculty/staff salaries of the principal nor any co-applicants; computer hardware or non-specialized software, or any parts of conference travel.

Please note:

- 1. Original receipts will be required for items such as materials.
- Proposals that involve collection of data must conform to the research ethics policies in place at the institution of the Principal Applicant and all data collection sites. For further information, seek assistance from your Office of Research Services or equivalent.

4. References Cited

Give full references for all materials cited in the Rationale.

Peer Review of Proposals

Proposals will be "blind" peer-reviewed by three external reviewers who will forward their recommendations to the Selection Committee who will use the stated review criteria to prioritize funding decisions. The Selection Committee will consist of a subcommittee of the Executive Committee. Principal Applicants will be notified of the successful grants as soon as possible.

Overall Review Criteria:

- **Relevance** the value of the work proposed to the local and/or broader postsecondary educational development environment and to the EDC Living Plan
- Awareness of related work, current and prior proposals should build on demonstrated awareness of similar programs and/or existing scholarly work.
- Clarity of process and product clarity of each section of the proposal.
- **Feasibility** the likelihood that the project can be completed in the time frame proposed and with the resources requested.
- Collaboration across institutions is encouraged.

Reporting and accountability

Two brief reports are required.

 Interim report - Deadline: Six months after receiving the grant Half-way through the project the Primary Applicant will submit a brief (1-page) interim update to the VP professional development (which will be posted to the EDC website.)

2. Final Report – Deadline: Upon project completion or one year following

One month after completion of the project the Principal Applicant is required to submit a

- a. final budget,
- b. one-page report of the completed project,
- c. list of any publications, conference proceedings, workshops or other methods of dissemination completed to date or anticipated regarding this project.
- d. Any resources that may be available to the EDC community.

These reports will be added to the growing collection of EDC resources and will be posted to the EDC website.
