**Danielle Robinson, Franz Newland, Rachelle Campigotto, Dana Craig, Danielle Dobney,
Andrea Kalmin, Alice Kim, Natasha May**

York University

*The Cross-Campus Capstone Classroom: Pan-University Innovation for Interdisciplinary
Experiential Education*

Established in 2012, the D2L Innovation Award in Teaching and Learning, sponsored by D2L, a global learning technology company transforming the way the world learns, celebrates and recognizes up to five post-secondary collaborative teams each year for their innovative approaches that promote student-centred teaching and learning.

“The innovation demonstrated by these exceptional teams is inspirational to all of those invested in teaching and learning in higher education. We are immensely proud and grateful of the recipients’ contributions to learning and scholarship in Canada,” said Elana Cooperberg, Chair of STLHE.

The 2023 D2L Innovation Award in Teaching and Learning recipients are at the forefront of innovation both within their institutions and higher education more broadly.

Recipients of the award receive support to offset the registration and travel costs to attend the Annual STLHE conference.

STLHE and D2L will officially welcome these incredible recipients at the Annual STLHE conference which will be hosted in Charlottetown on June 13-16, 2023.
