Design & Build Engineering & Architecture Transdisciplinary Course, University of Manitoba

Jillian Seniuk Cicek, Shawn Bailey, Kari Zacharias, Farhoud Delijani

University of Manitoba

Established in 2012, the D2L Innovation Award in Teaching and Learning, sponsored by D2L, celebrates, and recognizes up to five post-secondary collaborative teams each year for their innovative approaches that promote student-centred teaching and learning.

“The creativity and leadership of these exceptional teams provides a unique learning opportunity for students and a source of inspiration for all of us working in higher education. We are immensely proud of the recipients’ contributions to learning and scholarship in Canada,” said Elana Cooperberg, Chair of STLHE.

The 2024 D2L Innovation Award in Teaching and Learning recipients are at the forefront of innovation within their institutions and higher education more broadly.

Recipients of the award receive support to offset the registration and travel costs to attend the Annual STLHE conference.

STLHE and D2L will officially welcome these incredible recipients at the Annual STLHE conference hosted in Niagara Falls on June 11-14, 2024.
