fresh perspectives, thoughtful engagement, and intellectual rigour bring vital energy to your fields of study. We commend your efforts to question, explore, and reimagine how learning happens—your voices are helping to chart new directions in education.”

“On behalf of 3M Canada, I extend our warmest congratulations to this year’s award recipients. These outstanding students represent the next generation of leaders, innovators, and changemakers. Their commitment to achievement in higher education reflects the very values we champion as a global organization. We are proud to support their academic journey and look forward to the impact they will undoubtedly make in their chosen fields.” – Marie-Claude Brandys, *3M Canada Country Governance Leader*

The 3M National Student Fellowship is an exciting opportunity for students across Canada to distinguish themselves as part of a unique learning community.

Each recipient receives a two-year membership for STLHE and the opportunity to develop a funded project on teaching and learning with their cohort.

This year’s cohort of 3M National Student Fellows continues the legacy that began in 2012—a legacy that we know will assist many future years of undergraduate students across Canada.

STLHE and 3M Canada will officially welcome these incredible leaders into the Fellowship at the STLHE Annual Conference, which will be held from June 10-13, 2025, in Saskatoon, Saskatchewan.
